OES every day find you lame, stiff and achy? Do you feel tired and drowsy-suffer nagging backache, headache and dizzy spells? Are the kidney secretions scanty and burning in passage?

Know, then, that these are often signs of improper kidney action. Sluggish kidneys allow acid poisons to remain in the blood and upset the whole system.

If your kidneys are acting sluggishly, assist them with Doan's Pills. Doan's, a stimulant diuretic, increase the secretion of the kidneys and thus aid in the elimination of waste impurities. Doan's are recommended the country over.

THE ATLANTA CONSTITUTION'S "COW" FIGURE GAME

\$2,000.00 First Prize — \$1,000.00 Second Prize — \$500.00 Third Prize Twenty-five Cash Prizes in All--- Amounting to \$4,515.00

\$500.00 Extra First Prize for Promptness

This is your opportunity to use your spare time to advantage. These big cash prizes are going to be given away to the lucky winners, and no one has a better chance than you if you will only make the proper effort. The object of the game is to see how much you can make the "COW" weigh by filling inside of the border representing the cow with fig-

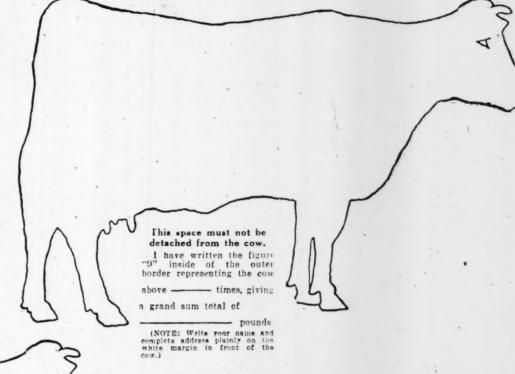

ures "9." Now isn't that simple? How many times can you write by hand, using a lead pencil, the figure "9" inside the border forming the cow outline? The sum total of the number of the "9's" that you put in the cow picture will represent your answer or what you give as the weight of the cow. For example twenty "9's" will be 180 pounds; one hundred "9's" would be 900 pounds, etc. Can you write in one hundred "9's," two hundred, or how many? The person having the greatest number of "9's," that is, the largest sum total, will win first prize, second largest second prize,

"9" AS MANY TIMES AS YOU CAN INSIDE THE BORDERLINE OF THE "COW."

When you have them all written in, add them. That will give your answer to "How Much Can You Make the Cow Weigh." Every "9" stnads for 9 pounds, and the total of "9's" you have written in the cow space is your weight record. Begin now on the game by clipping out the "cow" picture and start

with lead pencil to filling in with the figure "9." You will find it absorbing fun, and every "9" that you write in the "cow" figure takes you further on your way to the big cash prizes that are to be given. Be sure that the "9's" do not touch each other, nor touch of the cow. You may have additional copies of the "cow" pitcure by

THE "HOW MUCH CAN YOU MAKE THE COW WEIGH" GAME CLOSES EDNESDAY, FEB. 8TH, 1928.

NO SOLUTION CAN BE CHANGED AFTER IT HAS ONCE BEEN REGISTERED.

If you find that you can make the cow weigh more than the first solution which you sent, the only thing you can do is to send in another solution, which must be qualified independent of the first solution submitted. In other words, the qualification of one solution already submitted cannot be transferred to a later solution.

IMPORTANT FACTS TO REMEMBER!

While the amount you pay with the solution does not have any effect on your winning an award, it does affect the amount you will receive should you win one of the awards, as the value of these awards is determined by what the winners pay. This is explained in the prize list, which you should study carefully before sending in your solution.

Florida Again Will Be Scene of Many Training Camps.

BY GEORGE KIRKSEY.

New York, January 22.—(United News.)—This is the time of year when hope beats highest for the 16 major league teams who soon will start training for the 1928 season.

Confident of success during the coming campaign, pennant winners and tail-enders will start for their camps in the south and west early in February.

It is pulled off. This young infielder may be obtained by the New York Giants of Rogers Hornsby.

A year ago the New York Giants wanted Burleigh Grimes, of the coding campaign, pennant winners and tail-enders will start for their clubs and Buffalo, of the International league, was cooked up.

The National league is something else again with the Pirates, Cubs, Giants, Reds and Cardinals all po-

Giants, Reds and Cardinals all potential pennant winners.

All of the American league clubs with the exception of the Indians have retained their 1927 managers. Roger Peckinpaugh, veteran shortstop who was with the White Sox last year, will lead the Indians under the direction of Fills. tion of Billy Evans, the new general manager of the club.

Three managers have been engaged

Three managers have been engaged by National league teams, with one of them, Bill McKechnie, new leader of the Cardinals, back in the role of pilot after having been fired by the Pittsburgh Pirates.

Jack Slattery, a former college coach at Harvard and Boston college, will manage the Boston Braves and Burt Shotton, the erstwhile major league outfielder, will lead the Phillies. Shotton managed the Syracuse. Shotton managed the Syracuse club in the International league last season with considerable success.

Two Big Surprises.

Rogers Hornsby and Kiki Cuyler were the outstanding National league players involved in trades. Hornsby was traded to Boston by the Giants "for the good of the club," and Cuyler was traded by the Pirates for the same reason. with Hornsby around, Boston fans

have visions of the first winning team in six years. The Cubs got Cuyler which gives them just about the best outfield in the National league, which gives them just about the best outfield in the National league,

The St. Louis Browns were the most active club in shuffling their players around. George Sisler was sold to Washington for \$15,000. Bing Miller was teaded to the Athletics for Sam Gray. Ken Williams was sold to the Red Sox for a nominal sum. Harry Rice and Elam Van Gilder were sent to the Tigers for Heinie Manush and Lou Blue.

The Pirates, with Sparky Adams to fill the gap at second base look good enough to fight for the pennant right down to the finish. The Reds and Cardinals haven't done-any trading of consequence but both clubs will have to be reckoned with.

Scott League

Scott League

The first half of the season in the Trammell Scott league ended last week with Martin Nash occupying the top posticular topic to the next to the last series and they were beaten by the New York Life team by one point. The race was fight, three other teams being tied for second place with two games each lost ont of the seven. Each of these three has beaten one of the other two during the season, making the dope quite complicated.

The second half starts Wednesday night at the A. A. C. when four games will be played.

Five Players Involved.

Florida again is the most popular spot among the major league teams. Five clubs from each league will train there this spring. The Pirates and Cubs will train at Paso Robles, Cal, and Avalon, Catalina Islands, respectively. The Indians will to in at New Orleans and the White Sox at Shreveport, La. The Tigers are the only club going to Texas and the Giants leave Florida to train in Ty Cobb's home town, Augusta, Ga.

Delaney, incidentally is one of the most likable figures in the ring today. The young Bridgeport, Conn. mit merchant, after winning the world's light-heavyweight title, resigned that honor to take his chance among the bigger boys.

Another thing—not until the Montgomery fight had Delaney weighed as much as 180 pounds. While a lightheavyweight, his swift, sure, agile style of fighting had earned him the title, "The Rapier of the North." But in the brief period he spent in the ring with Montgomery. Delaney looked inst

MEET ME AT MARPI-GRAS NEW ORLEANS, FEB. 16-21, 1928, —(adv)

John Arden, handsome young Londoner, meets through an accident lovely Esmee Bermore, to whom he is able to render a slight but chivalrous service. He learns that the gipl and her companion, Mrs. Sinclair, lately strived in London from the Argentine, were the last two persons to see Lord Farndale alive. The old earl's suden and mysterious death is announced to the world by the morning papers and Arden grows suspicious of Mrs. Sinclair when he learns that she is trying to keep their visit to the old earl secret and is coercing Esmee into secrecy against her will. The police, however, learn the dentity of the two women who visited Lord Farndale just before his death. Mrs. Sinclair, fearing arrest or detention as a material witness, persuades Esmee to accompany her to Paris. John Arden, whose interest in Esmee has been aroused because he fears that she is under the influence of an unscrupulous creature, saves her from arrest by kidnaping her at the railroad station from behind Mrs. Sinclair's back. He takes her to the apartment of Andy Burke, one of his best friends, and Burke turns over his rooms and his housekeeper to her.

the apartment of Andy Burke, one of his best friends, and Burke turns over his rooms and his housekeeper to her.

The friends put their heads together in Esmee's behalf, but in the midst of their plotting Furneaux, of Scotland Yard, joins them. Esmee tells her story to the men and at the completion of it the detective agrees to help her.

Esmee, who is the granddaughter of Lord Farndale, had never seen the old man until first before his death. Her lather, only child of the earl, had quarreled with him in his youth, had gone out to the Argentine, married, lived and died there. Her mother had died when she was very young. Mrs. Sinclair, a friend of the family, had been very kind to her after her father's death and had invited the lonely young girl to lives with her. There Esmee met Juan de Braganza, a young Argentinian, who asked her to marry him. She refused him. Juan invited Esmee for a ride one day and her took her out into the country and they stopped at an inu for coffee. Esmee grew ill after drinking it, but maintains she never lost consciousness. She was asked to sign the line's register, but she refused and demanded to be taken back to fown.

Furneaux tells her that Juan de Braganza claims that she is his wife.

Esmee decides to go back to Mrs. Sinclair and Furneaux agrees to let her go. Mrs. Sinclair and Braganza, who has arrived in London, are placed under surveillance and complete protection is givefi Esmee by the police.

John Arden follows Braganza tries to calist her aid in having Esmee acknowledge shroad for fifteen years. Braganza tries to calist her aid in having Esmee acknowledge shim as her husband, but, disliking his appearance, she gives him very little encouragement. Arden wins the old lady completely when he tells her that he intends to run down Braganza's false claim and to marry Esmee himself. He induces Lady Doone to each other at sight.

New York, January 22.—Breaking thorn silence in the controversy over the purchase of Russian oil, directors of Standard Oil of New York issued a statement this week which Wall street accepted as declaration of open war with the powerful Royal Dutch-Shell group in the oil markets of the world. This war between Royal Dutch-Shell and Standard Oil, Wall street really believes started with price cutting.

ice cutting.

A day or so after the Standard Oil A day or so after the Standard Oil directors issued their declaration of war against the Royal Dutch-Shell group, Colonel Ayers, of the Cleveland Trust company, in discussing the general trade situation and outlook in this country, had this to say: "Clearly competition among the motor makers is going to reach a new pitch this year. It now looks as though the competition among automobile many npetition among automobile manu-turers would benefit the general blic and general business.'

Melvin A. Traylor, president of the highly successful First National bank of Chicago made a year-end forecast of general trade which attracted wide attention because it was different from others widely published. Traylor shadows a rise in prices." He expresses the belief that "the effect of the European situation on American business for the next year is, I think, very uncertain," adding "I doubt very much if corporation profits are as large another year as they have been this. In fact it would be an agreable surprise to me if they are main tained."

What most of the Wall street bankers have to say is voiced as follows by one with an international reputation: "Take the Steel corporation to make a very poor earnings statement for the fourth quarter of the findustry expects the Steel corporation to make a very poor earnings statement for the fourth quarter for the full 12 months of 1927. Westphalia United Electric Power Corporation

First Mortgage 6% Sinking Fund Gold Bonds, Series A

Due January 1, 1953.

Interest payable January 1 and July 1 at the office of Speyer & Co., New York, or of Harris Trust and Savings Bank, Chicago, n United States gold coin, without deduction for any present or future German taxes. Principal payable at the office of Speyer & Co. Coupon Bonds in denominations of \$1,000 and \$500, registerable as to principal. The Corporation reserves the right to call Series A Bonds or redemption at par, as a whole or in part, on any interest date, upon sixty days' previous notice. Annual Cumulative Sinking Fund, beginning in 1931, sufficient to redeem 60% of Series A Bonds at or before maturity, slied to the purchase of such Bonds at or below par and accrued interest, or, if not so obtainable, to redemption by lot at part redemption to be on January 1, 1932. In lieu of cash payments, the Corporation may tender Series A Bonds at par.

Mr. M. Krone and Dr. M. Fischer, General Directors of Westphalia United Electric Power Corporation, have summarized in part their letter of January 14, 1928, copies of which may be obtained from the undersigned, as follows:

Westphalia United Electric Power Corporation is one of the largest producers and distributors of electricity in Germany and furnishes the greater part of the electric light and power used in an industrial section with approximately 3,000,000 inhabitants. The Corporation supplies, directly or through local distributing systems, electricity to about 440,000 consumers in 530 communities and gas to over 21,000 consumers in 14 communities. The cities served include Dortmund, Barmen, Bochum and Münster.

The entire capital stock of the Corporation, approximately \$10,000,000 par value, is owned, directly or indirectly, by municipalities served and by the Free State of Prussia.

The Bonds will be the direct obligation of Westphalia United Electric Power Corporation and will be secured, upon redemption of \$7,500,000 First Mortgage 61/2% Bonds to be called for payment on June 1, 1928, by a direct first mortgage on substantially all the fixed properties now owned by the Corporation and its subsidiary companies, subject only to charges under laws enacted to give effect to the Dawes Plan nents in respect of which, on the basis of present provisional assessments, will be \$92,132 per annum) and to a real estate mortgage of \$33,333 on a small portion of the property of the Corporation. The lien of the mortgage is to be extended to all fixed property, mortgageable under German law hereafter acquired by the Corporation or its present subsidiary operating companies and by future subsidiary companies the properties of which may be subjected to the mortgage.

The Bonds will be issued under an Indenture to Deutsche Treuhand-Gesellschaft, Trustee, and Harris Trust and Savings Bank, Chicago, Co-Trustee. The total amount of Bonds to be at any time outstanding will be limited to \$50,000,000 (or equivalent in other currencies). These \$20,000,000 Series A Bonds and the \$33,333 mortgage will, upon completion of this financing, be the only secured funded debt of the Corporation or of its subsidiary companies. Additional Bonds (other than Bonds for refunding) may be issued for a principal amount not to exceed 663/1% of the cost or fair value, whichever is less, of additional fixed properties, under restrictions to be set forth in the Indenture, but only if combined net earnings (as defined therein) shall have been not less than three times the annual interest on all Bonds to be outstanding under the

The properties of the Corporation and its subsidiary companies include four steam electric power plants with an

aggregate installed generating capacity of 160,000 kw., now being increased to 235,000 kw., about 2,669 circuit miles of transmission lines and about 3,460 circuit miles of distributi lines, over 194 miles of gas mains and four coal mines with adequate reserves for the system's requirements. The electric and gas properties to be mortgaged have been appraised by an independent American engineer at about \$36,000,000 and the coal properties by an independent German engineer at more \$3,000,000; the total value of these properties is thus about twice the principal amount of these Series A Bonds.

The proceeds of this issue will be applied to the payment of the above First Mortgage 61/2% Bonds and of floating debt incurred for capital expenditures, and to additions and improvements to the properties of the Corporation and its Combined earnings of the Corporation and its subsidiary

companies (inter-company transactions eliminated), as certified by Messrs. Haskins & Sells, were as follows:

Gross operating earnings \$10,523,107 \$8,580,736 Non-operating income 359,371 386,812 Total\$10,882,478 \$8,967,548 Operating expenses, maintenance,

6,792,011 5,634,516 depletion and taxes Net earnings (before interest

replacements)\$ 4,090,467 \$3,333,032 The above net earnings for the twelve months ended August

31, 1927, after deducting therefrom the Dawes Plan charges were equal to about 31/3 times the annual interest on these Bonds. The net earnings include \$221,177 for the twelve months ended August 31, 1927 and \$133,329 for the year 1926, applicable to interests not owned by the Corporation in subsidiary companies, substantially all the fixed properties of which are to be subject to the mortgage securing these Bonds.

During the past two years additions to properties amounted to over \$15,800,000, the effect of which is only partially reflected in the above earnings, and substantial sums from the proceeds of this issue will be expended for the further development of the system.

All conversions from German to United States currency have been made at 4.20 Reichsmarks to the Dollar.

Application will be made to list these Bonds on the New York Stock Exchange.

All proceedings in connection with the issuance of the above Bonds are subject to the approval of our counsel. Messrs. Sullivan & Cromwell, New York, and Messrs. Albert & Westrick, Berlin. The above statements are subject to corrections for cable errors.

We offer the above Bonds for subscription, if, as and when issued and received by us, at 92\\\frac{4}{9}\) and accrued interest, to yield about 6.60\%.

Westphalia United Electric Power Corporation First Mortgage Sinking Fund Gold Bonds, 61/4% Series due 1950, to be called, will be accepted in payment for these Bonds at the redemption price of par and interest to June 1, 1928, discounted at 41/2% from date of delivery, provided notice of the amount of Bonds to be so tendered is given not less than five days before the date fixed for delivery of the new Bonds.

We reserve the right to close the subscription at any time without notice, to reject any application and to allot a smaller amount than applied for. Amounts due on allotment will be payable at the office of Speyer & Co., 24 & 26 Pine Street, in New York funds, en or about February 21, 1928, as called for, against delivery of Interim Receipts exchangeable for Definitive Bonds when ready.
